Mineral Resources and Energy  
REPUBLIC OF SOUTH AFRICA

**ENERGY INNOVATION FOR LIFE**

## Content

- The importance of being in the National ESCo Register
- ESCo Booklet 2022/2023
- SANEDI ESCo Register Re-Opening for 2023/2024
- ESCo Registration Online Portal
- ESCo Register Progress to Date

## Acknowledgements

The ESCo Register was elaborated by the support of DMRE, SANEDI, GIZ & SAEEC.

## The Importance of being in the National ESCo Register

- The ESCo Register gives an overview of;
  - ESCo availability and activity in Provinces of South Africa,
  - according to technologies, services & sectors.
- It serves as a directory for public and private project development and implementation.
- ESCo register is reliable because the companies in it have been assessed by experts.
  - Their company documents are assessed by ESCo register evaluators.
  - Their competencies have been assessed.
  - Their project experiences are proven.
- Public and private clients save time when sourcing for specific competencies of energy services (they use the ESCo register).
- SANEDI is a resource to implement capacity building interventions to strengthen the ESCo skills & competencies.

- 🇿🇦 SANEDI's Energy Service Company (ESCo) profile booklet conveys information about the National ESCo Register and profiling the companies in the ESCo register.
- 🇿🇦 The profiling of the Energy Service Companies (ESCOs) aims to give public and private stakeholders detailed information on the ESCOs in the Register; services they offer, field and technologies of expertise and their recent activities/projects in the energy and renewable industry.

## 🇿🇦 Energy Service Company Booklet Content

- Background
- The National ESCo Register
- The maturity of ESCo Register over the years since its establishment
- Status of the South African ESCo Market
- Information on ESCo Sectors, including Services and Technologies offered by ESCOs

## ESCo Market Development: ESCo Register Re-Opening 2023/2024

- The National Energy Service Company (ESCo) Register was established in 2017 and is being promoted in collaboration between South African National Energy Development Institute (SANEDI) and the Department of Mineral Resources and Energy (DMRE). It is an important tool to facilitate the market development and growth of ESCOs in South Africa.
- **ESCo Register Re-Opening for 2023/2024**
  - The ESCo Register has been designed to re-open regularly allowing for new ESCOs to register and for existing ESCOs to gradually mature to higher classification.
  - SANEDI to **RE-OPEN** the ESCo register for 2023/2024 in November 2023 and to close the registration process on 31 January 2024 to allow evaluation of the registrations received.

**Who should Register?** The register makes provision for the inclusion of ESCOs across the value chain of energy services offered, e.g. Auditing, Measurement & Verification, Technology Installers, Consulting Engineers as well as full ESCOs that provide energy services and financing.
